**“Don’t Bypass Students”:** The University of Utah thought of putting forth an initiative to withdraw from the National Student Association and subsequently decided to postpone the break and reconsider if it really wants the withdrawal. The University President Richard Rettig had a special meeting with the NSA and shortly after he turned his eyes to the “Bennion Plan” that was proposed by the ASUU president named John Bennion. According to the Plan, a group of student representatives are to be elected and will travel to the NSA Congress to deliver the will of the body of students regarding political and educational issues that may exert influence on them. However, as some ASUU officers once hinted, such a move could be seen as the school’s Executive council’s introducing a Senate bill that would authorize future elections of NSA representatives by skipping some steps that the formal constitutional amendment requires.
